

BRS BUDDIES

This feature allows you to keep a list of your regular playing companions so that you can quickly find them when making a tee booking.

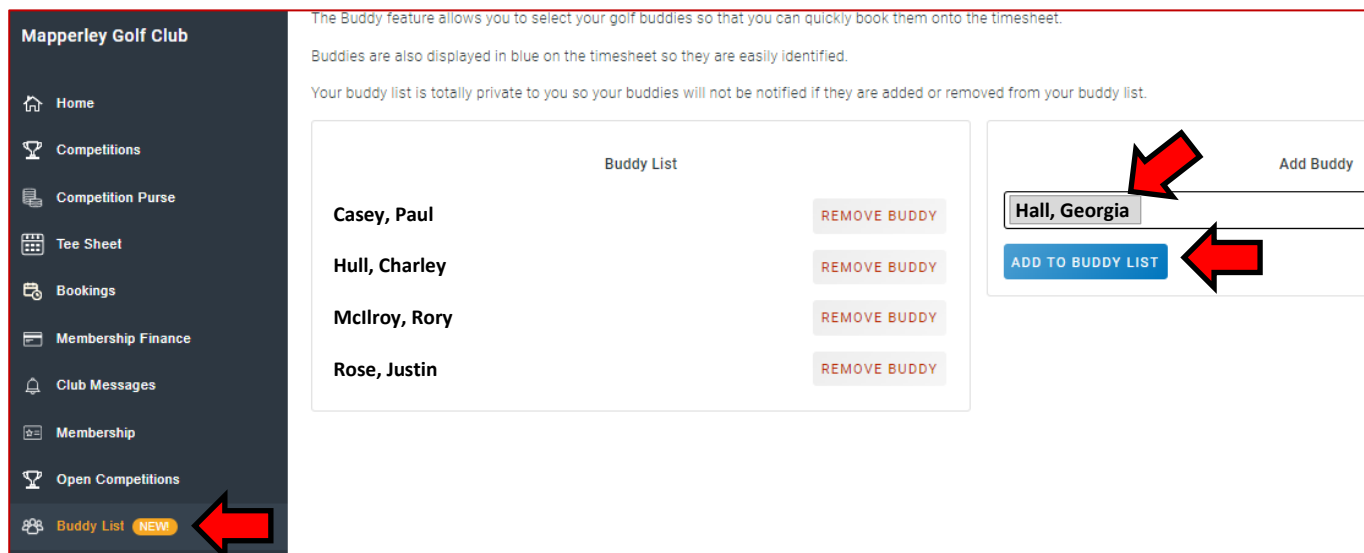

Your buddies are displayed at the top of the list of members when you tap to add another player to your tee bookings.

Buddies are displayed in blue on the timesheet so you can easily see if they are on a timesheet.

Your Buddy List is totally private to you so your Buddies will not be notified if they are added or removed from your list.

To add someone to your Buddy List

Tap **Buddy List** in the main menu:

Enter the first few letters of your buddy's name (first name or surname) in the **Add Buddy** box and select their name when it appears in a list below the box.

Then tap **Add to Buddy List**.
