

Updating your contact details

If you have registered for a BRS account you are able to update your contact details in BRS.

However, it is better that you don't. This is because we also need to update your details in "**ClubSystem**" which is the master membership database from where your subscription renewals are generated and competitions & handicap records are maintained. So it is better to let us make the changes in BRS.

If you have registered for a **Members' Only** account for this website, log-in and update your contact details on the [My Profile](#) page. When you save the changes it will send a message to the Club.

If you don't have a Members' account, go to the [Contact Us](#) page and fill in the **Contact Mapperley Golf Club** form, selecting **option 11** in the **Regarding** drop-down list.

Alternatively, you may email details of the changes to:
teebookings@mapperleygolfclub.org
